

Announcing the School Albuterol Access Initiative

August 25, 2026

Objectives

We would like participants in today's webinar to understand:

- How to implement an emergency stock albuterol program using CDPH's albuterol standing order.
- How to obtain free albuterol metered-dose inhalers and single-use, disposable, valved holding chambers from CalRx.
- How to access free asthma and school albuterol training guidelines from the California School Nurses Organization (CSNO).

Agenda

- 1 Welcome & CalRx® Initiative Overview**
- 2 Amneal NOW™ Ordering Portal Demo**
- 3 CDPH Albuterol Standing Order Overview**
- 4 CSNO Asthma & Stock Albuterol Training Overview**
- 5 Q&A**
- 6 Close**

Welcome and Introductions

Sarah Turner

Pharmaceutical Project Manager

CalRx

Department of Health Care Access and Information

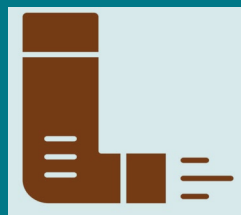

Launching Today!

School Albuterol Access Initiative

In partnership with CDPH, Amneal Pharmaceuticals, and the California School Nurses Organization (CSNO), CalRx® is launching the School Albuterol Access Initiative, including:

Easy-to-use portal for ordering albuterol inhalers & single-use, disposable spacers (LiteAire®)

FREE Back-to-School Packs of 2 inhalers + 25 spacers for 3 years (limit 1 per public/charter school, per year)

FREE asthma & stock albuterol training materials from CSNO (for public school districts only)

- **Eligible Schools:** public/charter TK–12 schools, school districts, and/or county offices of education (COEs)
- All schools can also purchase products at their own cost (\$9.50 per inhaler and \$93.75 per 25-pack of spacers, plus tax & shipping). Some schools may be eligible for free refills if funding is available.
- Schools **must** obtain a standing order from CDPH before ordering products.
- Ordering by school district or COE is **strongly encouraged** to reduce the number of shipping locations.
- School names & addresses will be validated using the information listed in the California School Directory. Please **verify** that your school(s) are listed.
- After 3 years (June 2029), the portal will **remain accessible** to continue ordering products at a reduced cost.

Amneal Ordering System Overview

Registration

The image shows a screenshot of the Amneal website with a registration process overlay. The main website content is dimmed, showing a product page for Albuterol Sulfate Inhalation Aerosol. The registration process is shown in a modal window titled "Sign In".

Website Navigation:

- Top navigation bar: **SIGN IN** (circled in yellow with a yellow arrow pointing to it), **CART**.

Sign In Modal:

- Form: Email *
- Button: **Continue**
- Text: *Required Fields
- Text: New to Amneal NOW?
- Link: **Create an Account** (circled in yellow with a yellow arrow pointing to it) to access the portal

Product Information (Albuterol Sulfate Inhalation Aerosol):

- NDC 69238-1291-1
- 90 mcg per actuation

Registration: Create New Account

Clicking Create an Account from the Sign-in flyout panel takes you to this first registration page where you will enter basic information:

- Organization legal name
 - Uncheck box if commonly used name if different
- Address including County
- Portal Admin information

The screenshot shows the 'Create New Account' page on the Amneal website. At the top, there is a search bar and navigation links for 'SIGN IN' and 'CART'. Below the header, a progress bar indicates four steps: 'Basic Info' (active), 'Additional Info', 'Billing & Shipping', and 'Done!'. The main content area contains a welcome message and a list of required fields with asterisks. The fields include: 'Organization Legal Name' with a checkbox for 'Name & Organization Legal Name are same' and another for 'I am applying under a Celex program'; 'Organization Type' with a dropdown menu; 'Street Address' with a location input; 'County', 'City', 'State/Province' (dropdown), 'Zip', and 'Country' (dropdown with a note 'We currently ship only within the United States.'). There is also a 'Contact Phone#' field. Below these are fields for 'GLN Number (If Applicable)', a checkbox for 'Use Legal Address as Billing Address', and 'Portal Admin' information including 'First Name', 'Last Name', and 'E-Mail Address'. A note at the bottom states 'Portal Admin email that will be used to login to the portal and to create other users.' and 'This form is protected by reCAPTCHA - the Google Privacy Policy and Terms of Service apply.' At the very bottom are 'Cancel' and 'Continue' buttons.

CDPH

Office of School Health

Albuterol Standing Order

Ryan Skaggs, MPH, CHES

Office of School Health Chief
Center for Healthy Communities
California Department of Public Health

Albuterol Standing Order

- Removes access barriers for schools to stock unassigned albuterol multiple dose inhalers (MDIs) and disposable spacers
- Each CA school may obtain 2 MDIs and 25 disposable spacers, refills are allowed
- Can be paired with CalRx School Albuterol Access Initiative to provide access to free resources
- Standing orders save lives!

What is the Albuterol Standing Order?

- Issued by CDPH in partnership with the CA Department of Education and the Department of Health Care Access and Information
- Supports local emergency planning under [California Education Code Section 49414.7](#)
- Authorizes schools, local education agencies (LEAs) including districts and charter schools, County Offices of Education (COEs), to obtain albuterol and single-use holding chambers
 - Applies to elementary, middle, junior high, and high schools statewide
- Program eligibility details are available on the Albuterol Standing Order FAQ website
- Training standards and administration guidelines are provided by the CA Department of Education
- Schools must report each instance of stock albuterol administration to CDPH
- Reporting is done via the [Administration of Stock Albuterol Reporting form](#)

Albuterol Standing Order

How to apply

Schools, LEAs, and COEs can apply for a standing order online at <https://standingorders.cdph.ca.gov/>

Albuterol Standing Order

About the Program

In partnership with the CA Department of Education and the CA Department of Health Care Access and Information and to support local medical emergency planning associated with California Education Code (EC) Section 49414.7, CDPH has issued a statewide standing order for albuterol to provide emergency medical aid to persons suffering, or reasonably believed to be suffering, from respiratory distress in California schools.

Albuterol Standing Order

How to apply (2)

Standing-order recipients are required to report on instances in which stock albuterol is administered to a person suffering, or reasonably believed to be suffering, from respiratory distress. For reporting, please fill out the [Administration of Stock Albuterol Reporting](#) form.

[Apply Here](#)

[Administration Reporting](#)

[Frequently Asked Questions](#)

Albuterol Standing Order

How to apply (3)

- Complete all required fields of the standing order application
- Come prepared with a list of school sites and addresses
 - Built in tool to retrieve County-District-School (CDS) code
- Review and accept our terms and conditions

Albuterol Standing Orders

This form is for authorized representatives of California TK-12 educational organizations to request a standing order for albuterol. This form will generate an albuterol standing order that California schools, school districts, county offices of education, and charter schools can use as a prescription for albuterol to ensure the safety and well-being of persons experiencing respiratory distress in schools or during school activities.

Please follow the instructions in the form to provide the required information. When you click "Next", our system will generate your standing order. **Please leave your browser open – you will automatically be redirected once your standing order is generated.** You will also receive an email confirmation with your standing order PDF attached for your records.

Let's get started and ensure that everyone in schools and at school activities has access to life-saving albuterol when they need it most.

Albuterol Standing Order

*How to use a standing
order*

- CDPH will **not** be providing albuterol or disposable spacers to schools
- CalRx School Albuterol Access Initiative will accept the standing order to provide albuterol and disposable spacers
- CDPH is aware of some pharmacies and distributors who will accept the standing order
- Schools will likely incur out of pocket costs that may not be reimbursed by Medi-Cal

We are aware of the following statewide entities that will accept the standing order:

Albuterol Standing Order

Reporting requirements

Standing-order recipients are required to report on instances in which stock albuterol is administered to a person suffering, or reasonably believed to be suffering, from respiratory distress. For reporting, please fill out the [Administration of Stock Albuterol Reporting](#) form.

[Apply Here](#)

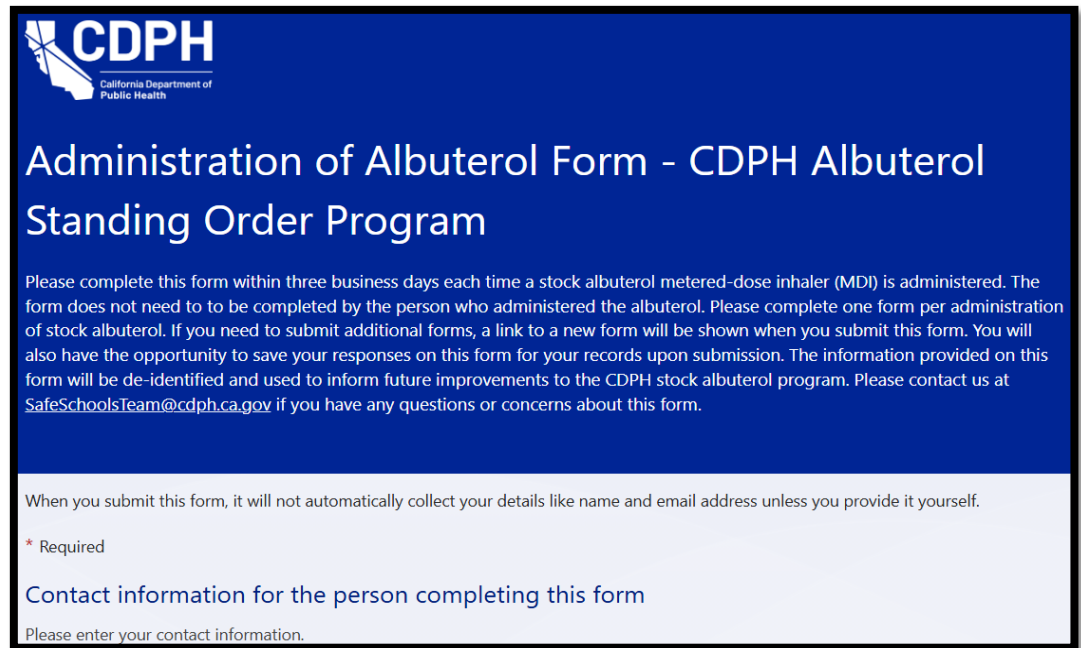

[Administration Reporting](#)

[Frequently Asked Questions](#)

Albuterol Standing Order

Reporting requirements (2)

- Each time albuterol acquired under the standing order is administered, schools must complete and submit an online reporting form within three business days
- The form does not need to be completed by the person who administered the albuterol
- We recommend schools keep a log with information on albuterol administration, including student grade and number of times administered

A screenshot of the "Administration of Albuterol Form - CDPH Albuterol Standing Order Program". The form has a blue header with the CDPH logo and title. The main body is white with blue text. It includes instructions on how to complete the form, a disclaimer about data collection, and a section for contact information.

Administration of Albuterol Form - CDPH Albuterol Standing Order Program

Please complete this form within three business days each time a stock albuterol metered-dose inhaler (MDI) is administered. The form does not need to be completed by the person who administered the albuterol. Please complete one form per administration of stock albuterol. If you need to submit additional forms, a link to a new form will be shown when you submit this form. You will also have the opportunity to save your responses on this form for your records upon submission. The information provided on this form will be de-identified and used to inform future improvements to the CDPH stock albuterol program. Please contact us at SafeSchoolsTeam@cdph.ca.gov if you have any questions or concerns about this form.

When you submit this form, it will not automatically collect your details like name and email address unless you provide it yourself.

* Required

California School Nurses Organization

Stock Albuterol: A Training Resource for California Schools 2026

LAWS

- **Effective Jan 1, 2024**

- **Permissive**

[EC § 49414.7\(a\)](#)

- **School district, county office of education, & charter schools**

[EC § 49414.7\(a\)](#)

- **Use of an albuterol MDI (multi-dose inhaler) with holding chamber**

[EC § 49414.7\(a\)](#)

Effective January 1, 2024, Education Code [§ 49414.7](#) allows school districts, county offices of education, and charter schools to maintain an emergency stock of albuterol multi-dose inhalers (otherwise known as MDIs), including single-use disposable holding chambers (frequently referred to as spacers), to provide immediate medical assistance to individuals experiencing respiratory distress or reasonably believed to be in distress. This law gives permission for these entities to have albuterol; it does not mandate that they have albuterol.

LAWS

- **Staff volunteering must receive initial and annual training**

[EC § 49414.7\(a\)](#)

- **Defense & Indemnification by LEA**

[EC § 49414.7\(j\)\(2\)\)](#)

- **CPR is strongly recommended (not required)**

[EC § 49414.7\(j\)\(2\); EC § 49413\(b\)\(3\); CDE, 2025](#)

- **Keep records of albuterol acquisition & disposition 3 yrs**

[BPC § 4119](#)

Any school electing to utilize albuterol MDIs for emergency medical aid to a person suffering, or reasonably believed to be suffering, from respiratory distress, shall distribute a notice at least once per school year to all staff. Each school may designate one or more designated, trained volunteers to receive initial and annual refresher training. The designated, trained volunteer would be able to use an albuterol MDI to provide emergency aid to persons suffering, or reasonably believed to be suffering, from respiratory distress. The school must provide volunteers with annual notification and training. Additionally, all volunteers must be provided defense indemnification for any and all civil liabilities. The indemnification information must be reduced to writing, a copy given to the volunteer, and a copy retained in the volunteer's personnel file. [EC § 49414.7](#) does not require certification in cardiopulmonary resuscitation (CPR) for the administration of Stock Albuterol. However, CPR is strongly recommended by CDE, CDPH, and CSNO. And, the first aid and CPR training must be “based on standards that are at least equivalent to the standards currently used by the American Red Cross or American Heart Association” (EC § 49413(b)(3)). Records regarding the acquisition and disposition of albuterol shall be maintained by the local education agency (LEA) for no less than a period of three years from the date the records were created ([BPC § 4119](#)). The LEA will be responsible for monitoring the supply of albuterol MDIs and ensuring the destruction of albuterol. Records should be maintained according to district procedure unless specifically indicated.

PREVALENCE

Asthma is one of the most common chronic diseases of childhood.

National prevalence:

4.7 million children (6.5%)

20.3 million adults (8%)

CA adult prevalence: 15.1%

Highest = Motherload 25.1%

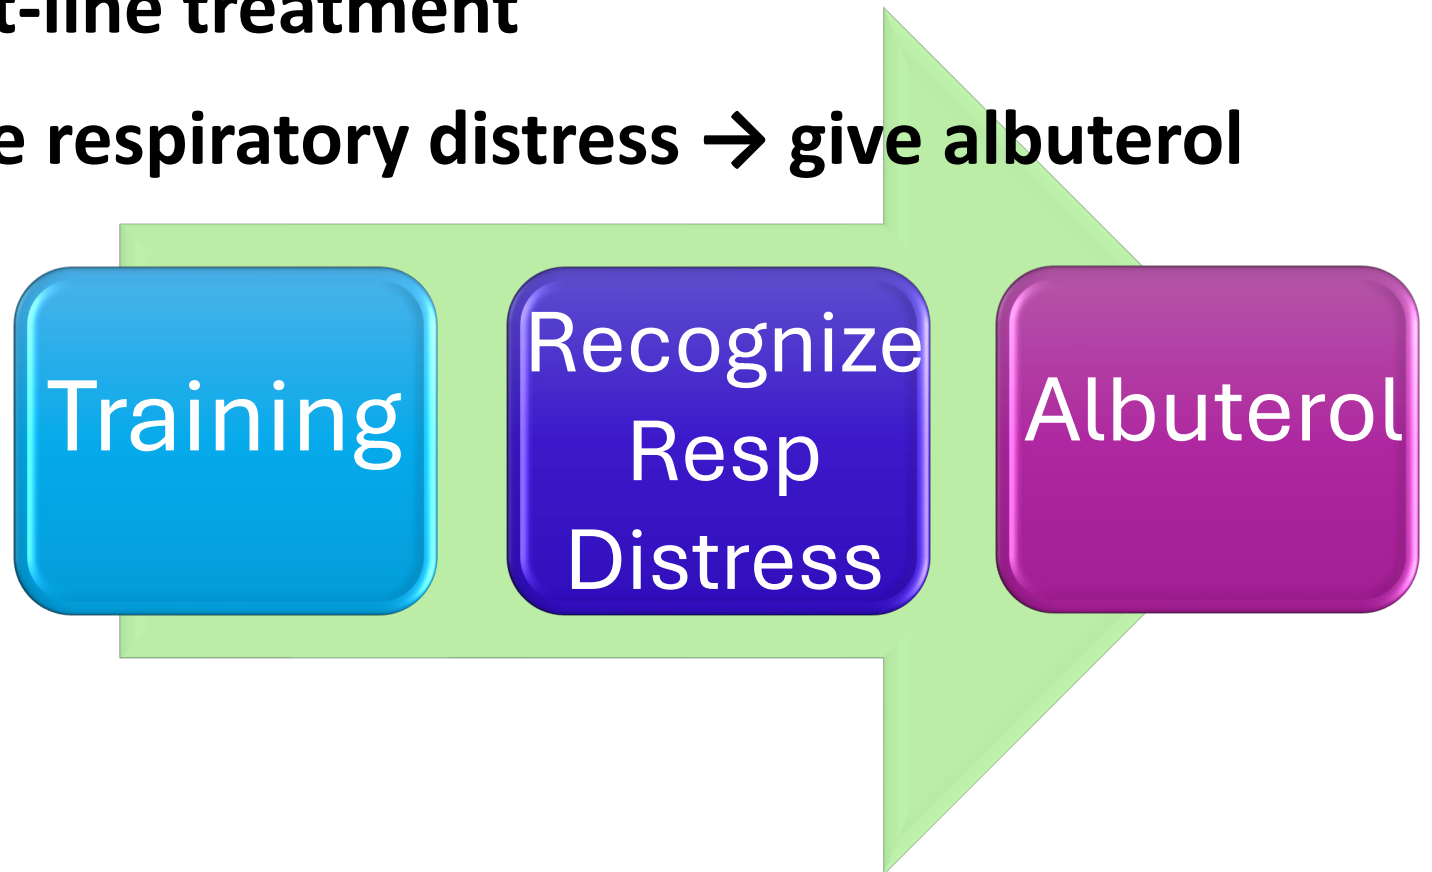

Lowest = Santa Barbara 9.6%

CA child prevalence: 6.4%

CA Lifetime 2021: 25% of people vs 14% in 2014

PURPOSE

- “To provide emergency medical aid to persons suffering...from respiratory distress” [EC § 49414.7\(a\)](#)
- Albuterol MDI = first-line treatment
- Training → recognize respiratory distress → give albuterol

Please provide me with a copy of the completed Individualized Health-Care Plan (IHP).

Parent and Self-administer Quick-Relief (albuterol) Inhaler
 I authorize the school personnel to administer their person and self-administer prescribed quick-relief inhaler to treat acute asthma symptoms in accordance with health-care provider's orders.

 _____ Date: _____
 _____ Date: _____

Health-Care Provider Authorization and Management in the Educational Setting
 I, _____, the parent/guardian of the above-named student, request that the specialized physical health-care provider authorize the school personnel to administer the prescribed quick-relief inhaler in accordance with state laws and regulations.

I understand that this authorization is valid only if a change in child's health status or attending authorized health-care provider; and I will provide new written consent/authorization for any changes in the above information.

I will communicate with the authorized health-care provider when necessary. I will provide a copy of my child's completed Individualized Health-Care Plan (IHP).

 _____ Date _____
 _____ Date _____

I hereby authorize the school personnel to administer the prescribed quick-relief inhaler to treat acute asthma symptoms in accordance with state laws and regulations.

Principal about health-care services provided for this student.

STANDARD HEALTH-CARE PROCEDURE
ADMINISTRATION OF STOCK/UNDESIGNATED ALBUTEROL HFA METERED DOSE INHALER

Purpose	To provide immediate medical assistance to individuals experiencing respiratory distress or reasonably believed to be in distress, by administering medication directly into the lungs of an individual: • previously unidentified, • without an individual inhaler, and/or • without an individual health-care provider authorization.
Cautions	1. If unsure whether a person is having an asthma attack or anaphylaxis, TREAT BOTH by administering epinephrine, then albuterol. Seek emergency medical care IMMEDIATELY . 2. If an individual has a known Asthma Action Plan, follow their plan.
Equipment and Supplies	1. Albuterol (short-acting bronchodilator medication) in HFA metered dose inhaler (MDI) Manufacturer: _____ Expiration Date: _____ Location(s): _____ 2. Disposable valved holding chamber. 3. Pulse oximeter (if available).
Note:	CPR is strongly recommended, but NOT required for those administering <i>stock albuterol</i> .

PROCEDURE	
Essential Steps	Key Points and Precautions
1. Determine if the individual is experiencing respiratory distress based on the signs and symptoms present. • Shortness of breath or difficulty breathing • Sitting in a tripod position (hunched over with arms on knees) • Rapid or labored breathing (one to two words between breaths) • Wheezing (a high-pitched whistle sound during exhalation) • Coughing, particularly after physical activity • Chest tightness or discomfort • Blue-tinged lips, face, fingertips, or nails • Agitation (panic or anxiety due to difficulty breathing) • Use of accessory muscles (significant belly movement or "belly breathing"). • Retractions (visualization of ribs or inward motion of the abdomen just below the ribs or above the clavicles with each breath. • Nasal flaring • Grunting with expiration • Fast pulse (tachycardia)	1. Act quickly as it is safer to give albuterol than to delay treatment.
2. Have individual sit down and restrict physical activity.	2. Never leave the individual alone. Speak softly and reassure the individual.

A METERED DOSE INHALER

Points and Precautions
Individual is clean and not expired.
Make and spray into the air when (new) & when not used for 14
HFA (Glaxo) = 4 sprays Sulfate (Cipla) = 4 sprays Sulfate HFA (Teva) = 3 sprays
Remove mouthpiece for foreign objects use.
Before each dose/puff.
Disposable spacer, have individual use side panels while holding the
Children and those struggling to have difficulty. Assist the needed.
Disposable spacer, have individual use firmly around small holes of the
Assist the individual.
Assist the individual in depressing the canister, then remove from their mouth.
Shout for them may help.
Severe distress and breathing difficulty:
Speak in complete sentences
Accessory muscles
With expiration
Blue lips, face, fingertips, or nails

EXAMPLE POSTER

SEVERE ASTHMA EPISODE

Recognize

**IF STUDENT IS: UNABLE TO SPEAK, UNRESPONSIVE,
UNCONSCIOUS → CALL 9-1-1
IF SUSPECTED ANAPHYLAXIS → GIVE EPI AUTOINJECTOR**

1. **BREATHING:** squeaky sounds, wheezing, continuous coughing, rapid breathing, or breathing worse even after medication;
2. **SPEAKING:** short/choppy sentences or difficulty speaking;
3. **LOOKING:** restless, hunching over, gray/blue lips or fingernails, or sucking-in of skin in neck area, ribs, or abdomen with breathing

Respond

- **STAY** with student. **NEVER** leave student with breathing difficulty alone. Do **NOT** allow student with breathing difficulty to walk anywhere.
- **SEAT** student UPRIGHT - do not let student lie down.
- **GIVE** **prescribed quick-relief MDI/stock albuterol MDI** with spacer.
- **FOLLOW** ASTHMA ACTION PLAN / STOCK ALBUTEROL SHCP.
- **CALL** 9-1-1. Call for help.
- **STAY** with student until paramedics arrive.

Follow-up

☐ **Notify** emergency contact

☐ **Document**

☐ **Check** dose counter

☐ **Clean** inhaler per SHCP

☐ **Refer** to HCP/PCP, if 911 called

☐ **District documentation** (incident report)

THE TRAINING

**Define asthma and
recognize the
symptoms of
respiratory distress.**

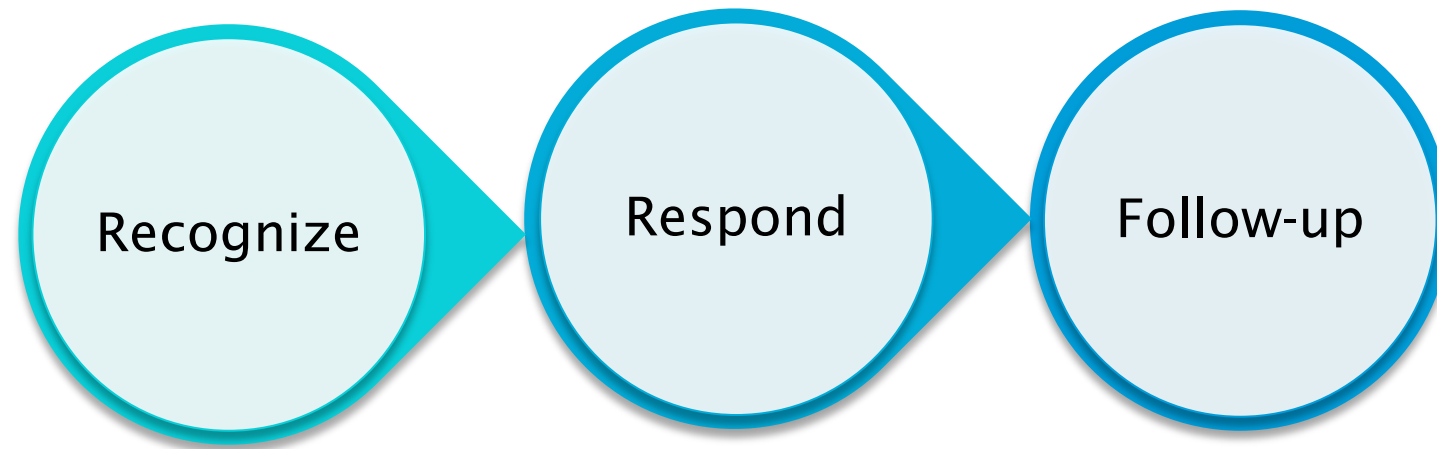

**Demonstrate how to
administer albuterol
MDI with a
disposable holding
chamber.**

**Identify emergency
follow-up and
documentation
procedures.**

**Describe
acquisition, storage,
and maintenance of
albuterol MDI and
disposable holding
chamber.**

3-STEPS TO ADMINISTER AN ALBUTEROL MDI

STEP 2 - RESPOND

- Have individual sit down & restrict activity.
- Wash your hands & gather supplies.
- Prepare to deliver Albuterol.

Fully insert canister into the plastic actuator.

Shake inhaler well.

Remove cap from the mouthpiece.

Insert inhaler mouthpiece into the back of the disposable spacer.

Grasp spacer with thumb and fingers on either side of the spacer.

Place spacer mouthpiece into mouth, over the tongue, closing lips around it.

Breathe out fully through mouth.

Fully depress top of metal canister while breathing in deeply and slowly through mouth.

Hold breath 10 seconds then breath out slowly.

Wait 1 minute, shake the inhaler again, and repeat.

- For **severe respiratory distress** and breathing difficulty, start with **4 puffs** of albuterol.
- If individual's breathing does not improve after 5 minutes,
 - Give **additional 2 puffs** (inhalations) **of albuterol**, then
 - **Call 9-1-1.**

If symptoms continue or worsen and EMS has not arrived,

- Give **additional 2 to 4 puffs** (inhalations) **of albuterol.**
- Continue to stay with individual and monitor until emergency personnel arrive.

- If symptoms continue and EMS has not arrived,
 - Give **additional 2 to 4 puffs of albuterol**.
- Once EMS arrives, provide update and transfer care, then document.
- Wash hands.

MDI with DISPOSABLE SPACER

Fully insert canister into the plastic actuator.

Shake inhaler well.

Remove cap from the mouthpiece.

Insert inhaler mouthpiece into the back of the disposable spacer.

Grasp spacer with thumb and fingers on either side of the spacer.

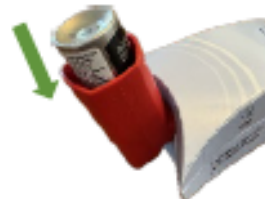

Place spacer mouthpiece into mouth, over the tongue, closing lips around it.

Breathe out fully through mouth.

Fully depress top of metal canister while breathing in deeply and slowly through mouth.

Hold breath 10 seconds then breath out slowly.

Repeat following SHCP.

CLEANING

Remove metal canister from plastic actuator.
Do **not** try to clean the metal canister or let it get wet.

Remove cap from mouthpiece.

Clean mouthpiece and cap with alcohol wipe.

Hold the actuator under the faucet and run warm water through it for 30 seconds.
Turn the actuator upside down and run warm water through the mouthpiece for 30 seconds.

Shake off as much water from the actuator as possible.
Let the actuator air-dry completely (overnight) in a clean location.
